Chicago, IL

## WORK EXPERIENCE

### Software Engineering Lead

Amount - *amount.com*

Chicago, IL

October 2019 - Present

- Lead developer on CRM and partner-facing applications
- Introduced API integrations with S3, Okta, Jira, and Ruby on Rails
- Developed front-end of point of sale and in-branch loan products using AWS Lambda and Serverless
- Created multi-tenant module framework for scaling Partner Portal
- Executed Amount brand redesign of partner-facing applications
- Performed extensive code review and mentoring of junior developers

### Software Engineer

Avant/Amount - *avant.com*

Chicago, IL

February 2018 - October 2019

- Front-end engineer responsible for crucial contributions to Avant/Amount's customer and partner facing front-end applications built with Typescript, React, Redux, Node.JS, and GraphQL.
- Overhauled styling pipeline to a themeable component library with React Styled-Components
- Modernized CRM product to use Apollo GraphQL and Jest
- Developed customer dashboard for self-servicing of loan and credit card

### Lead Javascript Developer

Riskbone - *leveltradingfield.com*

Chicago, IL

March 2016 - October 2017

- Front-end lead responsible for creating an online trading platform with Backbone, Socket.io, SCSS, jQuery UI, ZeroMQ, and Node.JS
- Managed four team members to meet development deadlines
- Built key application frameworks for authentication, payment processing, caching, pub-sub, and messaging
- Created desktop UI with workspaces
- Integrated with C++ API to render real-time market data, insert orders, and calculate PnL efficiently

### Web Developer / Designer

Freelance

Milwaukee, WI

October 2015 - April 2016

- Freelanced on web projects requiring web/mobile design, responsive CSS layouts, seamless page transitions, templating, e-commerce, asynchronous loading, prototyping, SEO, content management systems, and more
- Commissioned as a designer to create illustrations, advertisements, brochures, posters, brand identities, icons, logos, and more
- Participated in the local community of freelance professionals

### Graphic Designer

Radyne Corporation

Milwaukee, WI

February 2014 - October 2015

- Independently designed marketing content in-house for print and web
- Responsible for developing websites, product icons, animations, UI wireframes, product manuals and guides, brochures and catalogs, advertisements, video and photography content, email templates, and exhibition designs.
- Modernized the parent company's branding guidelines
- Created a distinct graphic identity for Radyne within brand standards
